Operator Precedence Languages

Jonas Kremer

December 6, 2018

Contents

1 Motivation/Introduction **3**

2 Preliminaries **3**
2.1 Operator Precedence Grammar 3
2.2 Operator Precedence Automata 3
2.3 Equivalence of OPG and OPA 3

3 (Closure-) Properties of OPLs **3**
3.1 Determistic vs. Nondeterministic OPAs 3
3.2 Closure Properties 3
3.3 Visibly Pushdown Language as a Subclass 3

4 (ω-Operator Precedence Languages) **3**

5 Implementation of OPLs **3**

6 Conclusion **3**

1 Motivation/Introduction

2 Preliminaries

2.1 Operator Precedence Grammar

2.2 Operator Precedence Automata

2.3 Equivalence of OPG and OPA

3 (Closure-) Properties of OPLs

3.1 Determistic vs. Nondeterministic OPAs

3.2 Closure Properties

3.3 Visibly Pushdown Language as a Subclass

4 (ω-Operator Precedence Languages)

5 Implementation of OPLs

6 Conclusion
